Arapahoe Road Trail Improvements

The Goodman Metropolitan District will be starting work to improve the existing multi-use trail along the north side of Arapahoe Road, from west of South Buckley Road to South Waco Street. The District's Arapahoe Road Trail Improvements Project consists of replacing approximately 3,800 feet of existing crusher fines trail with a new 8-foot wide concrete surface, together with related landscaping and utility improvements along the trail. The project was designed by J3 Engineering Consultants of Centennial and will be constructed by Thoutt Bros. Concrete Contractors of Denver. Work is expected to commence on August 1 and be completed by September 30.

Sincerely,

Board of Directors,
Goodman Metropolitan District
