## **Planned Verizon Tower – Community Update**

The recent community notification regarding the proposed ballot measure has led to a number of questions regarding the planned Verizon cellular tower. This update provides additional information on the planned cellular tower, and addresses questions that have arisen regarding the facility's location and appearance.

The District initially began considering proposals from Verizon around July 2015, and has discussed the proposed tower and lease in public meetings over the last two years.

The proposed location for the cellular tower is adjacent to the roundabout for the baseball fields at Creekside Park. The tower was placed near the creek to minimize visual impact.

Please see below for a map of the proposed location and a rendering of the tower and related facilities.

In addition to increased cellular coverage for Verizon users within the community, the District will receive \$1,200 a month/\$14,400 per year in lease revenues.

Please send any further questions or comments to Casey Lekahal at [clekahal@wbapc.com](mailto:clekahal@wbapc.com).
