Community Update - Central Park Court Improvement Project

The Central Park Court Improvement project is now underway. As noted in a previous Community Update, a portion of this project is being funded through an Arapahoe County Open Space Standard Grant in the amount of \$300,000. The Central Park Court Improvement Project includes the construction of two new fenced pickleball courts, improvements to the existing full-sized basketball court, construction of a new ½ basketball court, improvements to the drainage around the existing tennis court, and construction of additional shade and seating opportunities around the improved court areas. Portions of the parking lot and park may be temporarily restricted throughout the construction process. We will make every effort to minimize this inconvenience. In addition, the contractor is still finalizing the construction schedule, and as soon as we have a better feel for the construction timeline we'll update the community. An illustration of the planned court improvements can be found below, and any questions may be directed to Casey Lekahal at clekahal@wbapc.com. Thank you.

Court Area Master Plan Central Park at The Farm
