## Community Update - Central Park Court Improvement Project

The contractor recently installed the plumbed restroom and is currently working on concrete flatwork around the courts. Next week the contractor intends to complete the installation of the irrigation lines, electrical utilities and portions of the landscaping. Construction was further delayed due to weather events and Arapahoe County building permit delays. However, the newly constructed pickleball courts and restroom should be fully operational by November 15<sup>th</sup>, and the tennis courts will be re-opened then as well. Portions of the parking lot and park will continue to be restricted throughout this final stage of the construction process. We will make every effort to minimize this inconvenience. An illustration of the planned court improvements can be found below, and any questions may be directed to Casey Lekahal at [clekahal@wbapc.com](mailto:clekahal@wbapc.com). Thank you.
