Community Update - Central Park Court Improvement Project/Irrigation System

The pickleball courts, basketball courts and tennis courts are now completely open for use. The contractor has also recently installed a majority of the site furnishings, such as benches, tables and trash receptacles. We continue to work with Arapahoe County on the final building permit for the restroom, and will open the restroom as soon as possible.

The irrigation system was turned back on to ensure that the newly installed sod receives enough water. The irrigation system will be shut down and winterized later this week.

An illustration of the court improvements can be found below, and any questions may be directed to Casey Lekahal at clekahal@wbapc.com. Thank you for your continued patience throughout this project, and we hope you are enjoying the new courts.

Court Area Master Plan Central Park at The Farm
