### Community Update – Central Park Court Surfacing

Now that the weather is warming up, the contractor can apply the permanent court surfacing on the pickleball and basketball courts, and then will begin working on the remaining irrigation and landscape repairs.

The contractor will begin to apply the court surfacing today, Tuesday, May 14th, which will require a few days to complete. Unfortunately, the pickleball courts and basketball courts will be closed during this time. We hope to have all courts open and fully operational by this weekend.

Next week the contractor will begin the necessary irrigation and landscape repairs, which will complete Phase I of the Central Park improvements.

The design of Central Park Phase II, which will include upgrades to the Central Park playground equipment, is nearly complete.

We sincerely appreciate your patience throughout this process, and hope you are enjoying the new Central Park court improvements!

An illustration of the court improvements can be found below, and any questions may be directed to Casey Lekahal at [clekahal@wbapc.com](mailto:clekahal@wbapc.com).
