### Community Update – Central Park Playground Phase 2

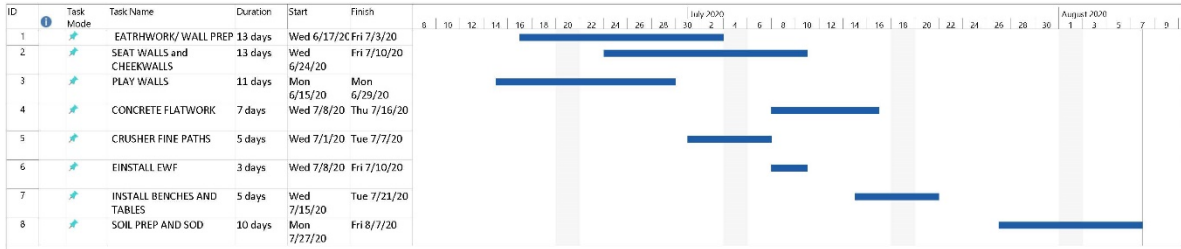

Please note there has been a short pause in the project as the contractor has been waiting on a delayed shipment of materials needed to begin work on the seat wall. The contractor has now received those materials and construction is slated to begin again in earnest this week. A schedule of the playground renovations is below. Despite the delay, the contractor is still on schedule and we anticipate the playground renovations to be finished on time in early August.

The District is also aware of the issues with dry-grass and irrigation near the construction site. The District’s landscape contractor is coordinating with the playground contractor to find a solution to fix the issue.

If you have any questions, please do not hesitate to contact PCMS at [corpoffice@pcms.net](mailto:corpoffice@pcms.net) or (303) 224-0004.
